Timmy, the son of famous scientists and Jamie his friend, love dinosaurs. One day, while Timmy’s parents are out, the twosome decide to watch a dinosaur video on the large monitor in the science laboratory.

As they try to turn on the monitor, they set off an experimental transfer device. Timmy and Jamie are instantly launched smack into the video action they had wanted to watch. Suddenly, they find themselves in the action for real. It’s the prehistoric era and dinosaurs are roaming the earth! This is big time fun!

Their adventure gets off to a great start as the dinosaur-loving duo meet up with two friendly dinosaurs, named Rex and Tops. The time travellers and the dinosaurs then team up to fight the Neanderthal villains called Rockys, mankind’s ancestors.
PRE-HISTORIC PLAYING TACTICS

This action-packed game has vertical and horizontal scrolling to give you fast action in all directions.

You and a friendly dinosaur are the main team in this exciting adventure in "DinoCity." Most of the action focuses around your battles with the evil cavehead Rockys.

When your dinosaur gets into a tight spot, it lets you hop off its back to allow for better freedom of movement. The dinosaur has some impressive fighting techniques. He doesn’t want you to hinder the attack and being such a friendly dinosaur, he doesn’t want to injure you, either. So off you go!
Together, you and your dinosaur dole out plenty of trouble for your arch enemy, the Rockys.

When the dinosaur crouches to let you off, for example, you have all the control of the action. You deliver special attacks with a handy remote controller while the dinosaur uses either a punching and stomping technique or flings his flying tools. An awesome team!

Throughout the game, keep your eyes open for secret doors. Behind them you may find an Egg, Life or 1-UP.

Stage 1 Boss is Crasher. He's one tough Rocky.
GET THE FUSE BEFORE THE EARTH BLOWS!

The evil Rockys have in their possession a powerful fuse—stolen of course. It has the power to blow every dinosaur to the moon. You must reclaim it from these hulking cave creeps by clearing every challenging stage of the game.

This is the only way you can save this fantastic prehistoric world, your dinosaur friends, and return to your own time and the lab of your parents.

You must fight your way through six stages to reach your goal. Each stage has five different areas. When you clear each of the five areas, you must face the Boss of that stage.

Watch out for the cave heads!

Trouble ahead, trouble above.

Jump for your life.

The 2nd stage Boss is Monster Mole. A real worm!

PICK YOUR TEAM

You and your dinosaur share lives—so you win or lose together as a prehistoric team.

When you lose a life, you restart from the beginning of the area in the current stage or you begin from the checkpoint if you passed it before.

When you get clobbered in the boss stage, you retry that stage. When the game is continued, you start from either the beginning of the area or at the checkpoint.

Learn the double jump: Your dinosaur jumps, then you jump off. The results are rewarding.

Grab the heart!

Watch out behind you!

This is some rollercoaster ride!
To launch your adventure, press the start button once when the Title Scene appears. Then the select scene appears. Here are your next options, and good luck in “DinoCity!”

DINO TIPS:
This is a dicey situation. First, hop off your dinosaur and then freeze the fish. You can use them as stepping stones.
The dinosaur is your main action player in this exciting game of prehistoric adventure. But you take the heat right along with your prehistoric pal!

When you’re on the dinosaur’s back, you’re safe from harm. Your “Saur” is taking most of the heavy hits. You may need to hop off your dinosaur’s back depending on the situation. Use the "R" Button to do this.

You can help your dinosaur buddy by removing traps or freezing enemies. When you’re on the front lines, your dinosaur is crouching in a safe zone. This is nice for the dinosaur, but you are taking all the hits! You need to get back to the dinosaur as soon as possible. As you do this, the dinosaur leaps right back into the fray.
PERILOUS PREHISTORIC LANDS

You and your dinosaur will battle through steaming jungles, dank, dark caves; and even find yourselves in a dinosaur grave. And that, of course, is not all you have to contend with in this land of many and varied challenges and surprises. We’re talking wild!

Each stage has a varying level of difficulty. Some are puzzling, and you have to use your head more than your hands. Others are all action where brute strength rules the land.

A secret panic button avoids disaster.

Take the heat in a steaming jungle.

Be careful not to get lost in a cave.

When you are falling, and there seems to be no way out of disaster, push the secret panic button. It’s the “R” for rescue.
